Ken:

Thank you for the report.

Its organization is great but it is missing a few necessary data elements in order to be a complete "statement" of DSM's exports: the epa waste code(s), the hazard class number, the UN number and shipping name, and the transporter(s) used.

Please include these at your earliest convenience and re send.

Thank you.

Scott,

It was pleasure speaking with you the another day. I appreciate your time in clarifying our reporting requirements under 40 CFR 262.56. Please find attached a summary report for hazardous waste shipping activity subject to the Acknowledgment of Consent (AOC) for EPA Notice ID 011495/2E/15.

Please acknowledge receipt and approval of this report and its contents.
